Summary of tax reliefs offered through SEIS

SEIS offers a number of tax reliefs to investors ranging from automatic reductions to loss relief and capital gains avoidance. Some of these are dependent on your tax bracket so you'll need to be aware of that.

Individual income tax relief of 50% of the amount invested with the potential to split the relief between the tax year of your investment and the previous tax year

Exemption from Capital Gains Tax on the earnings from your shares so long as you have held them for a minimum of three years

You are also able to receive Capital Gains Relief of up to 50% of the profits if you sell within three years and reinvest the profit into SEIS companies

Loss relief in the event that the company fails. The amount you receive in loss relief is equal to your investment minus the 50% you received back (item 1) multiplied by your tax rate (an example of this can be found below)
